CAREER OBJECTIVE

Second-year B.Tech student in Computer Science and Engineering with specialization in Artificial Intelligence and Machine Learning. Proficient in C, C++, and Python, with a foundational understanding of web development. Recently completed a Python programming internship, where I developed a Currency Converter project to demonstrate practical application of programming concepts. Passionate about AI/ML, problem-solving, and building real-world solutions. Continuously seeking opportunities to enhance my skills through projects and hands-on learning.
